

The Companions Programme offers Anglican men and women of varied circumstances, the experience of coming together with the Community of the Good Shepherd in living the mission through sharing of their faith, their vision, and their love for the 'sheep'.

By so doing:

- We become a healing presence in the Church.
- Our passion pushes us to develop new ways of serving.
- We love as the Good Shepherd loves, by including the excluded, mending the broken, bringing light to darkness.
